

AMY

I believe that each child is an individual and as an educator, I will value and respect, help guide and support their growing strengths, interests, and skills.

Children learn through play, using their imaginations, to explore and discover. I will offer opportunity for children to self-explore, while all the time making choices for their direction of learning.

I consider families to be a key part to children's learning, so building a strong connection and trust with them is important to me.

Children should be given the opportunity to make choices, taking on responsibilities to initiate their own learning. The environment they work in should be a safe, caring, and nurturing place, empowering the child to blossom and grow. I believe that the younger years of a child's life is vital to set them up to be competent learners.

I will do my best to provide the best care and support for each child. I am looking forward to learning so much more along the way, with starting to study next year, which will support me in a better understanding of Early Childhood Education.
